

Creating your own landing page

Are you looking for a way to share that you're using Creyos and elevating your standard of care by including cognitive and behavioral health testing in your practice? Start by creating a Creyos landing page for your website! A landing page lets you easily share how your practice is enhancing patient care with Creyos and provides a platform for educating current and prospective patients about the benefits of cognitive testing, behavioral health evaluation, and the overall Creyos experience.

This package includes all the assets you'll need to includes Creyos on your website:

1. Creyos branded website banner(s)
2. Short description of what Creyos is (see below)
3. Logos, illustrations and brand guidelines for usage
4. A sample landing page

Creyos Description

Creyos is a scientifically-validated online platform for precise and efficient measurement and monitoring of cognitive and behavioral health. Backed by 30 years of research and a robust normative database of 85,000 participants, it combines online, gamified, cognitive tasks with digital behavioral health questionnaires to provide an objective and comprehensive assessment of brain health. Trusted by tens of thousands of healthcare providers world wide, we've added Creyos to our practice to enhance care delivery and elevate our clinical decision making – helping you to achieve better outcomes, faster.
